Party menu

Thank you for booking your party with us. If we could get your pre-order 72 hours before, that would be great. If you can also put the name of the person next to their order please, as well as how they would like their steak cooked, as a lot of people tend to forget what they ordered.

To guarantee the high standards we have set ourselves, we have written this big table menu to make sure that everything is sent out as requested. I hope you understand this. This will also make your night run more smoothly and will irradiate a lengthy wait for your meals.

With regards to the steaks we also need to know how they would like to be cooked (Blue, Blue/Rare, Rare, Med/Rare, Med, Med/Well)
